

Public Notice
Town of Blackstone, Virginia
Emergency Procurement

On March 1, 2022, sealed bids were received, opened and read publicly to furnish the Town of Blackstone with single and three-phase padmounted distribution transformers. The Town only received one bid in the amount of \$76,228.00 with a lead time of 84-86 weeks. This is a project specific order and the lead time caused major costly delays so the Town has declined that bid. The Town has issued a purchase order to Southeastern Transformer for one 150kVA and one 300kVA three-phase padmounted transformer in the amount of \$18,208.55.

This contract is being awarded on an emergency basis. Due to the rising costs of goods and services and the strain of delivery times the Town felt it necessary to place an order with Southeastern Transformers in order to secure the transformers they had in stock.
